# Overall Technology Stacks

## **Microsoft**

Visual Studio 4~6, Visual Studio 2005-2017

.NET 2.0~4.6, C#.NET, VB.NET, VBA and C# based Office Addins Development

ASP.NET, ASP.NET MVC 1~6 with View Engines RAZOR and Web Forms

ASP.NET Web API, Entity Framework Code First and Database First, LINQ

**MVVM** – Model View ViewModel: KnockoutJS, AngularJS, Angular 2-6, Typescript

**JQuery and HTML5 and CSS3:** HTML, HTML5, CSS3, Bootstrap, JQuery, JQuery Mobile, EXT JS, AJAX, HighCharts, JSCharts, ChartJS Various JQuery Plugins for Calendar, UI Blockers and Custom Alerts etc., BreezeJS, RequireJS, VB Script

**Cloud:** Azure and AWS [EC2, Route53 and S3]

**Database:** MS SQL SERVER 2008+, MySQL/MariaDB

**MS Office:** Word, Excel, Outlook VBA and Add-in/Ribbons, Management dashboard, Reporting etc.

**Social Sites Integration:** Facebook, Twitter, Google+, LinkedIn, Yahoo

**OpenSource:** PHP with MVC Frameworks[CodeIgniter, CakePHP, Laravel]

**CMS:** WordPress, Joomla, Drupal

**Others:** DevExpress, LeadTools, Infragistics, SSRS, Licensing Modules, Reporting, EXTJS, EXT.NET, Node.js, Socket.io, DHTMLx Scheduler

**SPA:** KnockoutJS+Durandal, AngularJS

**Mobile Apps:** iOS, Android, Hybrid Apps using Phonegap

**Integration of APIs:** SOAP and RESTful APIs integration including Google Calendar/Maps, PayPal, Chargify, Insightly, Intacct, Authorize.Net and others

# Current and Previous Work Examples

- **A Invoicing and Business Intelligence Solution** for Service Industry specific portal built around ASP.NET MVC, Entity Framework 5, ASP.NET Web API2, Knockout.js, JQuery, SQL SERVER 2012
  - Running in live production since 2015 to current
  - Regular Enhancement, new modules and production support
- **Real Estate Project** for a UK based client providing custom-made capital solutions to owners and operators of commercial real estate across Europe. The project handles / employs a solutions-oriented and relationship driven approach to the middle market, underwriting transactions from €10 million in size.
- **A project around personal Financial planning** using ASP.NET MVC 4, Entity Framework Code First, Knockout.js, JQuery, JQuery Mobile, SQL SERVER 2012
  - June 2013 – May 2014
- **Healthcare Industry** built around ASP.NET MVC 3, Entity Framework 4, JQuery, SQL SERVER 2008R2, EXT JS, SSRS, DevExpress Reports
  - Live Production application since 2009 and supported till 2014
  - Regular Enhancement, new modules and production support
- **MS Office [Excel and Outlook] Addins**, Macros (VBA) and other customizations
- Customized Android App for Field Service Industry [large scale Landscape Management Company completed on behalf of <http://www.429designs.com/>], Mobile Apps on Android as well as iOS in native and Hybrid modes
- Barbering Industry Solutions built for US Clients barbinc.com.
- Many projects in WordPress segment and PHP Frameworks

# Pawan Bansal, PMP, MBA, ICWA, CSM

## Experience Summary

A result oriented professional with over 20 years' experience.

- Techno-management professional with hand on experience in the below technologies in addition to team management skills
- Microsoft Development Environments:
  - Legacy Microsoft Technologies Visual Studio 4|5|6, Classic ASP
  - .NET based technologies using latest Visual Studio versions beyond legacy platforms Visual Studio 2008 ~ 2013.
- Desktop and Web Applications
- ASP.NET WebForms & Razor, MVC 1~ 6, Entity Framework, LINQ, ASP.NET Core
- JQuery, AJAX, JSON, KnockoutJS, AngularJS, Angular2-5
- Third Party APIs integration based on WebServices and RESTful APIs
- SQL Server 2005+
- Migration Experiences from legacy applications in VB6 to .NET, MVC and latest technologies
- Extensive experience in gathering business requirements and articulate business requirements from user interviews and then translates requirements into functional and technical specifications.
- Excellent communication & interpersonal skills with proven abilities in resolving complex software issues.

# Aman Rajvanshi, PMP, MBA(IT) – Project Manager

## Experience Summary

A result oriented professional with over 15 years' experience.

- Managing multiple teams in different domains .NET, OpenSource, Android, Mobile Apps
- Techno-management professional with hand on experience in the below technologies in addition to managing team skills
- Microsoft Development Environments: Visual Studio 6 onwards including latest ones VS2013 ,2015,2017
- Desktop and Web Applications including MS Office Customization Apps
- ASP.NET WebForms & Razor, MVC 2 | 3 | 4 | 5, Entity Framework Code First and Database First
- JQuery, AJAX, JSON, Charting, KnockoutJS and AngularJS.
- Various APIs integration, Chargify, Intaact, PayPal, Authorize.Net, Social Media FB, Twitter etc.
- SQL Server 2005+
- Migration Experiences from legacy applications in VB6 to .NET, MVC and latest technologies
- Extensive experience in gathering business requirements and articulate business requirements from user interviews and then translates requirements into functional and technical specifications.
- Excellent communication & interpersonal skills with proven abilities in resolving complex software issues.

# Ashish Sharma, MCA, B.Sc.(IT) – Project Lead

## Experience Summary

A result oriented professional with over 10 years' experience.

- Microsoft Development Environments: Visual Basic 4-6, Visual Studio 2005 – 2017.
- Desktop and Web Applications including MS Office Customization Apps
- Having Experience with Xamarin Forms.
- ASP.NET WebForms & Razor, MVC 4+, Entity Framework Code First and Database First
- JQuery, AJAX, JSON, Charting, KnockoutJS and AngularJS, Angular2-6, JQueryMobile, HighCharts.
- Exposure to Node.JS and MEAN stack including MongoDB and Express
- SQL Server 2005+
- Infragistics, Telerik, SiteFinity, SiteCore, CrystalReports
- Having good experience on architecture design using Tiered architecture, design patterns (Factory pattern, Singleton etc.) and Architectural patterns (MVC, MVVM, Prism, MEF).
- Extensive experience in gathering business requirements and articulate business requirements from user interviews and then translates requirements into functional and technical specifications.
- Excellent communication & interpersonal skills with proven abilities in resolving complex software issues.

# Anshul Garg, B.Tech. – QA Lead

## Experience Summary

Manual Software Testing of mission critical business applications. He is a **ISTQB Foundation Level Certified** Software Tester. He has got comprehensive onsite exposure of working for prestigious clients like **AT&T (USA), SFR (France), Alcatel-Lucent (UK), Virgin-Media (UK), ACCA (UK)**. He has got good practical exposure on **Estimations, Test planning, Test environment maintenance, Test execution, Test Reporting & Client management** throughout project life-cycle. His testing expertise is in **Mobile Applications, Native Application (Android and iOS), Website Applications, Telecom (OSS) applications, Telecom Mediation** and **Education**.

- Experience in preparing Test Plan, Test Specifications, Test Environment, Test Cases, Test Reports and Testing Metrics
- Experience in conducting, formal and informal Reviews of Testing Artifacts
- Experience of multiple platforms like Windows XP, 7, 8, UNIX, LINUX
- Experience of Database Testing (MS SQL Server, Oracle, MySQL)
- Experience in creating high level scenarios, requirement traceability document and low level test cases and Execution
- Experience of Integration Testing of Third party reporting applications (Crystal reports, Netcool Reporter)
- Experience in Defect Management and Defect Tracking with HP Quality Centre, MantisBT, Jira, BugZila
- Experience in different types of testing viz. Requirement Testing, Smoke Testing, Functional Testing, System Integration Testing, E2E Testing, Regression Testing, Cross Browser Testing

# Kapil Pandey, MCA– Project Lead

## Experience Summary

A result oriented professional with over 6 years' experience.

- Microsoft Development Environments: Visual Studio 2008, 2010, 2012 and 2013
- Desktop and Web Applications including MS Office Customization Apps
- ASP.NET WebForms, MVC 4 | 5, Entity Framework Code First and Database First
- JQuery, AJAX, JSON, EXTJS, JQueryMobile
- SQL Server 2005, 2008, R2, 2012
- LeadTools, WordPress, PHP, MySql
- CrystalReports, SQL Server Reports, DevExpress Reports
- Experience in gathering business requirements and articulate business requirements from user interviews and then translates requirements into functional and technical specifications.
- Excellent communication & interpersonal skills.

# Nimisha Bansal, B.Tech.– Sr. Software Engineer

## Experience Summary

A result oriented professional with over 5 years' experience.

- **Android**: Java, Android SDK, Eclipse, Google APIs, Local Data with SQLite, Online and Offline Apps, Consuming SOAP and RESTful APIs, Custom Android App Development, Android Social Media Apps, Android QR/Barcode Apps, Android Support and Maintenance
- **iOS**: C, C++, Objective-C, Xcode, Custom iOS Apps Development, Mobile Application QA / Testing, iOS Support and Maintenance
- **Xamarin with Visual Studio 2017**
- **Hybrid Phonegap**: HTML5, CSS3, Phonegap Cordova
- Experience of API based communication in apps (server backend)
- Full knowledge and understanding of REST APIs
- Experience of custom UI development
- Experience of Login with 3rd party (e.g. Facebook, Google+, LinkedIn, etc.)
- Experienced use of version control (Git, SVN, BitBucket, TFS)
- Integration of analytics and events (e.g. Google Analytics)
- Experience in gathering business requirements.
- Excellent communication & interpersonal skills.

# Rest of the Team, MCA/B.Tech. – 3 to 5 years experiences

## Experience Summary

Professionals with 3 - 5 years' experience.

- Microsoft Development Environments
  - Visual Studio 2008, 2010, 2012 and 2013
  - Desktop and Web Applications, MS Office Customization Apps
  - ASP.NET WebForms, MVC, Entity Framework
- JQuery, AJAX, JSON, EXTJS
- SQL Server 2005, 2008, R2, 2012
- WordPress, PHP, MySql
- Google APIs, Google Maps, Google Docs, Google Places
- CrystalReports, SQL Server Reports, DevExpress Reports
- Understanding Requirements specifications and converting the same to technical specifications and finally doing coding and unit testing
- Excellent communication & interpersonal skills.
